Meet Türkiye!

At the center of it all.

Surrounded by seas on three sides, Turkey is a transcontinental country with lands in Asia and Europe.

The most populated metropolis of Turkey, Istanbul, is a hub of commerce, tourism, finance, health, technology, culture and art that attracts visitors from every continent through all seasons.

Globally connected.

Istanbul offers the most flights to most places globally, connecting to 5 continents and 250 cities. It has direct flight options to many cities worldwide. It is one of the essential connecting spots for international flights.

Stellar education.

With a k12 education system and an increasing number of qualified schools, Turkey offers excellent educational options. There are also international schools that provide education in other languages for foreign students to study.

Expert in healthcare.

With its solution-oriented and comprehensive health system, Turkey has become the rising star of healthcare services worldwide. In the process of combating the coronavirus epidemic that struck the world, Turkey took fast measures and decisive steps. It has been recognized as one of the healthcare systems that has managed the process best. Turkey is one of the leading health tourism centers in the world, offering health services options beyond world standards for surgery, plastic surgery, hair transplants, and IVF.

Full of investment opportunities.

Foreign real estate buyers and investors from all over the world can buy real estate in Turkey. With a strong economy, government incentives, industry potential, and cost-effective workforce, Turkey is a land of opportunities for investors. It is one of the most investor-friendly countries in Europe, ranked 11th among 36 countries in the OECD 2020 Tax Report “International Tax Competition Index”.

These lands with a unique geographical location on two continents connect to everywhere around the world with modern transportation capabilities. As home to different cultures and civilizations through time, their rich and deep history has evolved it into a treasure of its own with natural beauties and heritage. Many people from all over the world choose Turkey to **start a new life, work, retire or invest** for these reasons and much more.

Why Do Foreign Investors Prefer Turkey?

UNIQUE LOCATION AND EASY TRANSPORTATION

It is a centre of tourism and trade, in the middle of Europe and Asia. With modern travel options, any country is only a few hours away.

The process of owning property in Turkey is much easier compared to other countries:

Congratulations, you are now a property owner in Turkey!

A LAND OF PROFITABLE INVESTMENTS

With its strategic location, policies supporting investors, qualified youth workforce, affordable investment costs and competitive economy, Turkey is one of the most suitable ecosystems where you can turn your investments into profits.

A Continuously Growing, Robust Economy

Turkey's economy has grown more than three times over the past 16 years and promises more growth in the future.

The economy is driven by the entrepreneurial private sector, with a strong domestic market, incentives that support investors and exports.

Easy Access to the Consumer

Turkey has a strong domestic market. A significant middle-class consumer class has formed in the country thanks to increased purchasing power.

Thanks to the European Union customs union agreement, in addition to **83 million** consumers in Turkey, **513 million** consumers in Europe and **308 million** people in 27 countries can also be directly accessed with a free trade agreement. Proving the means for **direct access to 904 million consumers**.

Strategic Location

Turkey is located in one of the most important strategic locations globally for production, export, and management. It is only a 4-hour flight distance to 1.3 million people from all continents of the world. With more than 250 cities on 5 continents close-by, it is a market that reaches to the most destinations globally.

Qualified and Cost-Effective Workforce

Turkey's strong education system has created a skilled workforce that services a global market. Turkey leads the list of countries offering the most skilled labour at the most affordable rates.

A closer look at the data shows;

- Turkey outperformed countries such as Poland, Romania, Czechia in "availability of qualified engineers" with 7.35 points out of 10 points.
- Took first place among the same countries with a score of 6.15 in the "availability of senior managers".
- While "Hourly worker cost in manufacturing" is 5.6 USD in Turkey, it is 47.2 USD in Germany.

Investor-Friendly Policies

Investments in Turkey are under the protection of Foreign Direct Investment Law. There are bilateral investment protection agreements between Turkey and 82 countries. There are agreements with 86 countries that prevent double taxation. Plus, there is plenty of support for foreign investors in the form of low taxes, incentives and aid.

Large Projects Offering Investment Opportunities

Turkey continues to realise large projects in all fields. Nurturing sectors the support and incentives for all investors; it is fastly becoming a global investment centre. It is a top spot for many foreign investors and companies to invest in **transportation, energy, health, R&D, gaming industry** and **technology** with breakthroughs and promising projects.
